

STUDENT INTERNSHIP GOALS

The 4 goals you choose to make are meant to provide structure to your internship. Please describe the goal below and give ideas on how you plan to accomplish this goal. You will be asked to discuss your progress toward each goal as part of your journal entries, so you must always be striving to obtain them. You can make goals that are on-going or some that have a specific time period in which you would like to accomplish them. Please discuss your goals with your supervisor and make sure they are obtainable and make any changes necessary. Both you and your supervisor should sign your goals sheet.

Make 3 copies: one for you, one for your supervisor, and one to submit to the internship coordinator.
